Born 21/05/1999 · Italian (EU, no visa required) · Based in Italy, relocating to Maastricht (NL) — Oct 2026

PROFILE

Software developer with a background in Industry 4.0 software systems and hands-on experience with Django and Django REST Framework. After several years of international experience in hospitality across Italy, Spain and Switzerland, I returned to my long-standing passion for software development. Today I focus on backend systems, REST APIs and server-rendered web applications, and I am seeking opportunities to grow as a backend developer in the Netherlands.

PROJECTS

booking-api — Multi-tenant booking platform: REST API + htmx frontend on one Django project

Concurrency-safe booking with `select_for_update` · role-based access (JWT) · 31 tests · PostgreSQL, Docker

Live: booking-api-production-51cd.up.railway.app · Code: github.com/matteo-cremonini/booking-api

task-manager-api — Personal task-management REST API with strict per-user data isolation

Owner-only access enforced twice (404 + 403) · JWT auth · 17 tests · PostgreSQL, Docker

Live: web-production-dda72.up.railway.app/api/tasks/ · Code:

github.com/matteo-cremonini/task-manager-api

EXPERIENCE

Backend developer — self-driven · 2026–present

Building and deploying tested Django/DRF backends and server-rendered frontends (see Projects).

Django developer — ITS internship · Associazione Digital Dreamers · 2020 · 3 months

Advanced Django development (ORM, views, templates), without DRF.

Web developer — ITS internship · A-Cube · 2019 · 3 months

WordPress development — HTML, CSS and database integration.

Hospitality — waiter & barista · Italy, Spain, Switzerland · 2021–2026

Fast-paced, customer-facing roles across three countries; reliability, teamwork and multilingual service.

EDUCATION

ITS — Higher Technical Diploma (EQF 5), Software Systems Development (Industry

4.0) · ITS Academy Adriano Olivetti (formerly FITSTIC), Modena · 2018–2020

2,000 h (40% internship). Java/C# OOP, web (client/server, ASP.NET, UX), databases, networking & OS, IT security, mobile & IoT, software lifecycle, project management, technical English.

Technical & Professional Institute — Economics / International Marketing · isit Bassi

Burgatti, Cento (FE) · 2013–2018

SKILLS

Python · Django · Django REST Framework · PostgreSQL · JWT · django-filter · htmx · Docker · Nginx · Gunicorn · Railway · Git

LANGUAGES

Italian (native) · English (B2) · Spanish (B1)

VOLUNTEERING & INTERESTS

Scout leader and member, AGESCI (2014–2020) · Volunteer, Lega del Filo d'Oro (2017).

Comfortable living and working abroad after several years across Italy, Spain and Switzerland.
